# About POPCEN and CBMS:

The Census of Population is a complete enumeration of households and institutional living quarters in the country, which is designed to take an inventory of the total population of the Philippines.

The Community-Based Monitoring System refers to an organized technology-based system of collecting, processing, and validating necessary disaggregated data that may be used for planning, program implementation, and impact monitoring at the local level.

## Contact Us

**Overview:**

The 2024 Census of Population and Community-Based Monitoring System (POPCEN-CBMS) represents a pivotal endeavor in the Philippines' commitment to comprehensive data collection and community development.

The simultaneous conduct of the two Philippine Statistics Authority-led statistical activities aims to capture a holistic understanding of our population and their needs, serving as a crucial data source for policymakers, planners, and decision-makers.
