Dependency ratio

The young dependents (0 to 14 years) comprised 30.9 percent of the household population in 2020. Meanwhile, the old dependents (65 years and over) posted a share of 6.4 percent.

The overall dependency ratio was 59, which indicates that for every 100 working-age population (15 to 64 years), there were about 59 dependents (49 young dependents and 10 old dependents).

Senior citizens comprise 9.6 percent of the household population

Senior citizens are those aged 60 years old and over. In 2020, senior citizens made up 9.6 percent of the 36,163 household population of Canaman. Among the senior citizens, females (55.2 percent) outnumbered the males (44.8 percent).

Thirty one elderly for every one hundred children below 15 years

The ageing index or the proportion of persons aged 60 years and over per 100 persons under the age of 15 years was computed at 31.0 percent in 2020. This means that there were thirty one elderly aged 60 years and over for every one hundred children under 15 years old.
