

Inflation Rate

Inflation Rate is the rate of change in the average price level as measured by the CPI between two periods. It is a derived indicator by comparing the CPI between two periods, usually a year.

Consumer Price Index (CPI)

The Consumer Price Index (CPI) is an indicator of the change in the average prices of goods and services commonly purchased by consumers relative to a base year.

Purchasing Power of Peso

Purchasing Power of Peso (PPP) is a measure of the volume of goods and services which the currency can buy at any given period relative to that which it could purchase during the base year.
